

PRODUCT INFORMATION

TURRET UNLOADER REMOTE GREASE BANK

Starting with 2008 model production (s/n HTxxxxx) all Massey Ferguson 9690 and 9790 combines will be equipped with a remote grease bank for the turret unloader as standard equipment. This feature improves the serviceability of the area and reduces the possibility of incomplete greasing.

A retrofit kit for 2004 to 2007 models (s/n HNxxxxx to HSxxxxx) will be available in November 2007 thru wholegoods. The number for this retrofit kit is **71419646**.
